

# Robots staff an increasing share of US warehouses and fulfillment centers

Article

*For more insights and key statistics on the biggest trends in today's most disruptive industries, [subscribe to our Chart of the Day newsletter](#).*

Nearly **40%** of medium to large US warehouse and fulfillment center operators (with more than \$10 million in annual revenues) will deploy robots in one or more of their locations by the

end of 2021, up from **28%** two years ago. In 2023, over **44%** of these operators will call on robots, as usage of the automated workers climbs.
