

Foldable smartphone shipments are increasing, but don't expect them to take over anytime soon

Article

For more insights and key statistics on the biggest trends in today's most disruptive industries, [subscribe to our Chart of the Day newsletter](#).

From 2019 to 2022, foldable smartphone shipments will increase globally by nearly **18 million**. Still, the pocket-friendly phones will reach **just 1.2%** of the market in 2022, meaning there won't be a flip-phone renaissance in the near future.
