

The Weekly Listen: How inflation is affecting everything, Apple's realityOS, and time spent on TikTok

Audio

On today's episode, we discuss how inflation is changing consumer behavior, whether 15-minute delivery is too good to be true, the potential of Apple's realityOS, how much of the information shoppers give retailers is false, the ceiling to spending time on TikTok, an unpopular opinion about buying things from TV ads, pets' roles in Americans' lives, and more. Tune in to the discussion with our senior director of Briefings Stephanie Taglianetti, director of reports editing Rahul Chadha, and director of forecasting Oscar Orozco.

Unlock the Power of TV for your Business

TV advertising is powerful but traditionally expensive and complex. That's why Marketing Architects created All-Inclusive TV. They invest their OWN money to produce, analyze, and optimize your campaign. All you pay for is media. It's so revolutionary, they wrote a book about it.
