Audio

On today's podcast episode, we discuss whether X (formerly Twitter) can recover from its latest debacle, if folks will start buying cars on Amazon, whether ad-free social networks are inevitable, companies potentially ruining "buy one, get one free" deals, United Airlines weighing using passenger data to target ads on planes, how people feel about tipping in the US, and more. Tune in to the discussion with our vice president of Briefings Stephanie Taglianetti and analysts Ross Benes and Bill Fisher.
