

The Daily: What the OpenAI debacle means for AI's future, building GPT-5, and short-form video creation using AI

Audio

On today's podcast episode, we discuss what happened with Sam Altman and OpenAI, how the AI revolution just went through a shift, and what's next for the maker of ChatGPT. "In Other News," we talk about what to expect from GPT-5 and how AI could disrupt short-form video creation. Tune in to the discussion with our analysts Jacob Bourne and Gadjó Sevilla.
